Opportunities**

Company Overview

Built on Experience. Evolving with Technology

Lintas Investama is an integrated technology group with more than two decades of engineering expertise, delivering digital infrastructure and intelligent technology solutions that support Indonesia's evolving digital landscape.

Since its establishment in 2001, the organization has grown from a 25-person team into a technology group of over 450 professionals, supported by more than 230 engineers and over 170 certified experts.

Today, Lintas Investama designs, builds, and operates capabilities across network infrastructure & connectivity, cybersecurity, applications & AI, and data & cloud, enabling organizations to innovate, scale intelligently, and operate securely in an increasingly digital world.

Our Journey

Building upon this strong engineering heritage, Lintas Investama has evolved into a technology enabler driving Indonesia's digital evolution and regional expansion. Today, we deliver intelligent, connected, and future-ready solutions across telecommunications system integration, enterprise IT, big data analytics, and cybersecurity, helping organizations accelerate innovation and achieve sustainable digital growth.

Our Evolution into a Technology Ecosystem.

Architecting Communications, Creating Opportunities

Our Vision

Architecting Communications

- We are determined to be the best in what we do.
- We are determined to partner only with reputable principals who are willing to transfer knowledge and empower us to provide local support.

To Our Customers

- We are determined to deliver true experience to our customers

To Our Stakeholders

- We are determined to treat each other with trust and respect.
- We are determined to perform the highest level of achievement.
- We are determined to contribute and support Corporate Social Responsibilities

Our Philosophy

At Lintas Investama, our philosophy reflects the principles that guide how we think, innovate, and collaborate. Rooted in engineering excellence and responsible leadership, these principles shape our decisions, relationships, and long-term vision.

Integrity

Integrity defines how we build trust, within our organization, with our customers, and with the communities we serve. We believe in acting with honesty, accountability, and strong ethical standards in every interaction and decision.

Intelligence

We believe intelligence goes beyond knowledge, it is about applying insight, innovation, and creativity to solve complex challenges. We value smart thinking, continuous learning, and responsible entrepreneurship that drives meaningful progress.

Energy

Energy represents our commitment to action, agility, and forward momentum. In a rapidly evolving technology landscape, we embrace change with speed, adaptability, and resilience, enabling us to deliver impact without losing focus.

Why Lintas Investama

Across our companies, we bring together passionate engineers, innovators, and strategists united by one mission, to architect communications and create opportunities for Indonesia and the region.

Adaptive Through Technology Evolution

Engineering-Led Integrated Ecosystem

Built for Long-Term Sustainability

Proven Leadership and Institutional Strength

Our Capabilities

Network Infrastructure & Connectivity

Building the Foundation of Reliable Connectivity

End-to-end network infrastructure solutions designed to deliver reliable, scalable, and adaptive connectivity to support the continuous growth of data traffic.

- Optical networking installation
- Submarine cable network deployment
- IP & data networking and unified communications
- Software-defined networking (SDN)
- Access solutions and SD-WAN

Application & AI

Optimizing Operations Through Intelligent Applications & AI

Application and AI solutions designed to enhance operational visibility, automate complex processes, and mitigate risks across digital infrastructure and business operations.

- Network performance monitoring
- Revenue assurance
- Fraud management
- RAN automation (C-SON)
- Fraud detection system
- AI-Driven Operational Intelligence

Cybersecurity

Securing Digital Assets in an Evolving Threat Landscape

Comprehensive cybersecurity solutions aimed at protecting digital assets, strengthening security governance, and supporting regulatory compliance.

- Premier network security solutions
- Lawful intercept
- SOC Managed Services
- Firewall cleansing
- Bounty hunting

Data & Cloud

Building Scalable Data & Cloud Foundations for Digital Growth

Comprehensive data and cloud solutions that enable organizations to manage, integrate, and scale their digital infrastructure while supporting data-driven decision making.

- Data Management (ingestion, repository, transformation & advanced analytics)
- Data Platform & Architecture
- Cloud Migration & Modernization
- Cloud Infrastructure Optimization

Strategic Partners

Technology Partners We collaborate with leading global technology principals to co-develop solutions and deliver integrated digital capabilities for telecommunications operators, enterprises, and public institutions.

Value-Added Services Across the Group

Through our integrated group ecosystem, we deliver more than standalone projects. We ensure continuity, scalability, and future-readiness by supporting our customers across every stage of their digital transformation journey.

Managed Services 24/7 – Lintas Care

Always-on support to keep your operations running.
 Lintas Care provides flexible 24/7 managed services, covering both preventative maintenance and emergency support. Powered by a sophisticated online trouble-ticketing system, customers can create, track, and monitor service tickets anytime, anywhere via web, email, or SMS—ensuring faster response and operational peace of mind.

Partner Ecosystem

A collaborative ecosystem that multiplies value.
 Lintas Group works closely with leading technology principals and trusted business partners to form a unified ecosystem. This collaboration enables us to deliver best-fit solutions, accelerate innovation, and provide end-to-end capabilities that go beyond individual products or vendors.
